The productivity you need.

The Xerox Phaser 3130 laser black and white printer is designed to meet the needs of both the professional and the personal user. One of its many advantages is speed. The Phaser 3130 prints at a fast speed of 16 pages per minute and prints the first page of a document in less than 12 seconds. This means greater productivity for you and your office. The Phaser 3130 printer is Energy Star® compliant and has a Toner Save mode to reduce operating costs.

The flexibility to do more.

1200 dpi image quality and advanced features including N-up, watermark and poster printing let you print professional quality documents every time. The Phaser 3130 also supports a wide range of media types and sizes (including custom sizes) to meet all your printing needs. The compact and low profile design saves space on your desk.
