

Xerox® desktop black-and-white multifunction printers

Essential capabilities.

Outstanding value.

WorkCentre® 3210 / 3220

Phaser® 3300MFP

WorkCentre® 3210 / 3220

The WorkCentre 3210 / 3220 multifunction printer offers the right mix of features and performance for remote professionals and small work teams (up to 5 users). Two affordable configurations make it an easy choice for small-to-medium size businesses looking to replace single-function printers and older multifunction technology.

The WorkCentre 3210 is best suited for cost-conscious customers who need professional-looking output, fast speeds and essential print, copy, scan and fax capabilities.

The WorkCentre 3220 delivers faster print speeds plus:

- Automatic two-sided printing for reduced paper usage and cost savings.
- Adobe® PostScript® 3™ compatibility (Windows only) for more accurate output.
- Scan-to-email for easy distribution of scanned documents.

Phaser® 3300MFP

The Phaser 3300MFP is a scalable workhorse best suited for small companies looking to grow and large companies that require advanced security features. It's capable of supporting larger workgroups (up to 10 users) and improves office productivity with more powerful features:

- Scan-to-email with LDAP support for quickly adding email contacts.
- Advanced network scanning that enables electronic archiving, management and distribution of critical documents.
- More robust security in terms of safer, more secure internet and web browser communications and seamless network authentication.
- Strong Mac OS® support.
