Note: The above features are not included on all configurations.

\* Print productivity testing was conducted by Buyers Laboratory Inc. (BLI), with each product operating in default mode and resolution set at 600 dpi. Multiple jobs from a BLI test suite were sent in series to each device with output consisting A4 paper and a mix of single and multiple unstapled sets with a banner page for each job in the test suite. The order in which jobs were sent was randomly selected.
