Speeds Ahead of its Class

big printer performance

Quality prints in less time is what the Phaser 4400 is all about. Get beautiful prints at maximum resolution without sacrificing print quality for speed.

- 26 ppm races through long or multiple-set print jobs.
- True 1200 x 1200 dpi resolution at full engine speed for crisp text and beautifully detailed images exhibiting a wide range of tones.
- 266 MHz RISC processor maintains engine speed when handling even large, complex applications.
- 11-second first-page-out time means your first print will be waiting in the tray for you.
- Peak volume printing is no problem with a maximum 150,000 monthly duty cycle.

easy to use for the whole office

The Phaser 4400 is a safe, dependable choice for worry-free printing. It is easy to use and manage for even the most inexperienced user. Plus, if the printer is getting low on paper or toner it can alert you before it runs out – keeping you working.

- The Xerox proactive Smart Driver senses your printing habits and automatically adjusts to save you time and effort.
- A full compliment of Xerox WorkSet features is included with your Phaser 4400, including job pipelining with compression, MaiLinX e-mail alerts, and Booklet printing. Plus you get Saved Print, Secure Print, Proof Print, and Direct PDF Printing with a hard disk.
- Easily manage, configure, and diagnose the Phaser 4400 from your desktop using its CentreWare® Internet Services (IS) embedded Web server.

better printing for less money

With everything you get, the feature-packed Phaser 4400's reasonable price makes it an outstanding value. Its robust, dependable engineering, media flexibility, and print quality give busy offices everything they need in a network printer.

- The entry network model includes 550-sheet input tray, 64 MB of memory, true Adobe® PostScript® 3™, and a full-size standard-capacity print cartridge (not a starter cartridge).
- Decades of Xerox engineering of document handling devices is built into the paper pick and feed system on the Phaser 4400, making it extremely reliable and worry-free (approximately one jam for every 10,000 prints).
- Available high-yield print cartridges minimize printer interventions and save money.
- The Phaser 4400's proven, 2nd generation reliability is backed by a full one-year on-site warranty and the unmatched Xerox Total Satisfaction Guarantee.

Phaser 4400 Laser Printer

The Xerox Phaser 4400 brings quality, value, and efficiency to the office.

Today's fast-paced offices need a printer that can not only keep up with them, but also do it for less. The Phaser 4400 has what it takes to keep your office working — not the other way around. And it's so easy to install, use and maintain that you won't know how you ever worked without it.

smart printing for great work

When you connect a Phaser 4400 to your network, you can take advantage of Xerox CentreWare software. It provides quick and convenient access to a wealth of features, including printer and job status; in-depth accounting information, e-mail alerts; and simplified network administration.

Phaser Installer makes network installation a simple one-click process

Printer administrators will benefit from **CentreWare® Web** to manage all the printers on their network (including non-Xerox network printers) using a standard Web browser.

Dynamic driver interface provides real-time printer status, automatically selects the correct tray, and detects office application settings.

Enhanced **PrintingScout** provides instant pop-up messages on your monitor if any roadblocks arise during your print job.

The smart Phaser 4400 can even troubleshoot on its own with **PhaserSMART™**, our unique Internet-based automated support system.

flexible and reliable paper handling

The Phaser 4400's reliable paper pick and feed system allows all types of media up to 133 lb. cardstock (216 gsm) to be fed through the standard tray, including envelopes. Custom sizes anywhere between 3 x 5 in. and 8.5 x 14 in. are also supported. Plus, Xerox's brilliant Smart Tray technology allows you to see on your screen what size of paper is in the tray.

The optional 500-sheet stacker with offset both expands output capacity and separates print jobs for easy distribution.

Large output bin can hold up to 500 sheets.

Standard 100-sheet multi-purpose tray.

The standard 550-sheet paper tray allows you to add a full ream of paper before the tray is empty. Plus, the size of paper in the tray can be seen on your printer driver thanks to the Phaser 4400's auto size-sensing technology.

Up to two additional 550-sheet trays are available for a total input capacity of 1,750 sheets.
