• Swift throughput. The Phaser 4622’s Dual core floating point processor makes it possible.

• Exceptional sharpness and clarity. With image quality of up to 1200 x 1200, you’ll clearly see the difference with every document.

• Meet heavy-duty office demands. With a monthly duty cycle of up to 275,000 prints, the Phaser 4622 is built to take on whatever your office can dish out.

• Keep the peace. The Phaser 4622 is engineered for exceptionally quiet operation to minimize the impact on busy offices.

• Easy does it. You’ll be up and printing in minutes thanks to the simplified front console and automated setup feature.

• Print out of the box. The Phaser 4622 expands your creativity, allowing you to print on just about everything from transparencies, to cardstock, to envelopes and labels – and more.

• Flexible paper options. A 550-sheet capacity main paper tray can easily accommodate paper sizes from 3.86 x 5.8 inches to full legal size.

• Finish strong. The optional 500-sheet finisher gives you added muscle to staple up to 50 sheets automatically. A great way to further extend your office productivity.

• Handle complex documents with ease. Get standard memory capacity of 256 MB or expand to an optional size of 768 MB to meet your growing needs.

Keep your office lean and green.
The Phaser 4622 truly delivers an affordable office device that works hard for your office while being just as mindful of the world outside of it.

• Paper cuts. Highly efficient, hassle-free two-sided printing can easily cut your paper consumption in half while saving you time and money.

• Reduce paper costs. Single sheet, N-up printing lets you group multiple pages on a single sheet, so you cut down on paper usage and cost.

• Use consumables more efficiently. Our split consumables mean you replace only what you use – so you get the most out of every user-replaceable component.

• Drum out waste. The Phaser 4622’s long-life marking drum is engineered for longer life so you replace it far less – reducing toner waste and cost.
