

PHASER® 7700 COLOUR LASER PRINTER SPECIFICATIONS

CONFIGURATIONS

			
	7700DN	7700GX	7700DX
Print speed	22 ppm colour / 22 ppm black and white		
First page out	< 13 seconds colour, < 10 seconds black and white		
Image processing	500 MHz G4 class processor, Adobe PostScript 3, PCL5c		
Memory	Standard/Maximum	128 MB /512 MB RAM	256 MB /512 MB RAM
Maximum resolution	600 x 1200 dpi and Photo Mode		
Network connectivity	10/100Base TX Ethernet, Parallel, USB		
Automatic 2-sided printing	Standard		
Hard Disk Drive	Standard 5 GB Internal Hard Disk Drive		
Paper input capability	500 sheet universal tray, 150 sheet multi-purpose tray		
		1,500 sheet lower tray deck	2,500 sheet hi-capacity feeder
Productivity features	WorkSet, CentreWare IS Embedded Web Server, MailInX, PrintingScout, CentreWare Web		
		PhaserMatch ICC 7700	Finisher (Stacker/Stapler)
Monthly duty cycle	Up to 100,000 pages/month		
Standard features	Separation Pages, N-Up Printing, Booklet Printing, Watermark, Job Collation, Proof Print, Secure Print, Saved Print, Auto Tray Select, Job Accounting, Usage Analysis Tool, Job Pipelining, Extended Font Storage		
Warranty	One year on-site		

SPECIFICATIONS

Network/Software
Printer management Xerox CentreWare Printer Management for Microsoft, Novell and Unix, CentreWare IS Embedded Web Server (EWS), Xerox PrinterMap, and Xerox NDPS Gateway, Usage Analysis Tool
Font capabilities 136 Resident PS fonts and 45 PCL
Printer drivers Windows 9x (Peer-to-peer PhaserPort), Windows ME, Windows NT 4.0, Windows 2000, Apple EtherTalk (OS 8.x, 9.x, 10), Linux 5.2 , Sun OS 4.x Sun Solaris 2.4 , DEC, HP/UX 11.x, IBM AIX 4.2 , SGI, SCO, Novell NetWare 3.1x, NetWare 4.2x, NetWare 5.1, NDPS
Languages Genuine Adobe® PostScript® 3™, Colour PCL5C emulation with automatic sensing and switching
Paper handling
Paper input Standard 500-sheet universal tray and 150-sheet multipurpose tray. Standard two-sided module for automatic 2-sided printing. Optional 1,500-sheet lower tray deck provides three additional universal trays (standard on 7700GX), 2,500-sheet high capacity feeder provides additional universal tray and two A4 size trays (standard on 7700DX). Optional Finisher (standard on 7700DX) staples sets of up to 50 sheets (90 gsm) or 35 sheets (105 gsm) in multiple positions
Media types In universal tray: 64-169 gsm plain, coated and glossy papers, transparencies. In multipurpose tray: 64-220 gsm plain, coated and glossy papers, transparencies, labels, envelopes, newsprint
Media sizes A3, A4, A5, A6, B4, B5, B6, SRA3*, SP Folio, Oficio, *Print quality not guaranteed outside of the imageable area (303 x 447 mm)
Paper output Standard 400 sheets face down, Standard Offset catch tray - 400 sheets face down with job and copy offset, Optional Finisher (standard on 7700DX) for 1,400 sheets total output capacity
Special features
Printing Scout instantly displays pop-up Help if attention is needed during print jobs
Auto Install automatically gets you printing in minutes
Productivity tools for the user: Proof Print, Secure Print, Saved Print, Booklet Printing, Watermark, Collation Printing, Fax Friendly Black, Separator Page, N-up Printing, Job Pipelining
Productivity tools for the IT manager: CentreWare IS EWS, MailInX E-mail Alerts, PrinterMap, CentreWare Web Printer Management

SPECIFICATIONS

Colour controls
Colour standards PANTONE®-approved solid-colour simulations, Adobe PostScript device-independent colour, CIE international colour standards, and support for ICC, ICM, and Apple ColourSync colour management systems
Colour correction TekColour Dynamic Correction Colour Profiles, selectable from the driver: Automatic, sRGB Display, sRGB Vivid, None, SWOP Press, Euroscale Press, Commercial Press, SNAP Press, DIC, Toyo, Black and White, Fax Friendly Black
PhaserMatch ICC 7700 Standard 7700GX, Optional 7700DN and 7700DX colour management for custom profiles
Operating
Dimensions width: 644 mm (25.4 in.), height: 493 mm (19.4 in.), depth: 682 mm (26.9 in.), weight: 82 kg (180 lb.)
Environment Temperature: Operating: 10° to 32° C (50° to 90° F), Non operating: -20° to 50° C (-22° to 122° F). Humidity: Operating: 10% to 85% relative humidity, non-condensing. Non-operating: 30% to 85% relative humidity, non-condensing. Sound Level: Printing: LWAd = 69 dB (A), Standby: LWAd = 44 dB (A)
Electrical 200-240 VAC, 220 VAC nominal. 110-127 VAC, 110 VAC nominal. Frequency range 50/60 Hz. Energy Star Standby mode
Regulatory FCC Part 15, Subpart B (finisher class A), UL listed to UL 1950, CSA Certified to CSA-C22.2 No. 950, CE Mark applicable to directives 73/23/EEC and 89/336/EEC CDRH, EN 55022, NOM
Customer support

Phaser® 7700

A3 COLOUR PRINTER

The first thing you'll notice about the Phaser 7700 is its outstanding print quality. Its stunning, accurate colour lends a realism to images that has to be seen to be believed.

You might think that quality like this means sacrificing speed. But the Phaser 7700 delivers 22 pages a minute. That's three times faster than conventional colour lasers.

And it doesn't stop there. Thanks to its extremely versatile paper handling and a suite of powerful software tools, this remarkable printer is perfect for all sorts of documents across a wide variety of paper types and sizes. So it is ideal for even the most demanding workgroups.

exceptional image quality

1200 dpi resolution as standard guarantees crisp text and fine lines.

Image-enhancing **Photo mode** delivers a smooth tonal range and exceptional detail in photos and other continuous-tone artwork.

'Click print' and **automatic colour matching and calibration** keeps colours consistent and accurate.

There may be times when you want to fine-tune prints with your own settings. So we've built in precise colour controls that let you match to standard output devices, or to create your own custom adjustments. You can even compensate for unusual paper stocks or environmental conditions with the unique paper calibration feature. And **PhaserMatch ICC 7700** allows you to create, save and edit your own profiles.

maximum performance

With the first colour page printing in just **13 seconds** and the rest following less than 3 seconds apart, the 7700 is the culmination of all our experience in speed-driven single-pass printing.

Connecting to your network is simple with built-in support for 10/100Base TX Ethernet and USB, with easy auto-install and effortless 'plug and print' driver installation.

And thanks to a high-performance **500 MHz G4 class processor, a 5 GB Hard Disk Drive** and up to 512 MB RAM, the 7700 makes light work of the most graphically-rich, memory-hungry documents.

flexible paper handling and productivity tools

The 7700 has the versatility you need for everything from early design concepts to proofs right through to the final publication of documents ready for distribution.

Automatic **two-sided printing** as standard makes quick work of all your brochures, newsletters and reports.

And you can print on just the right media for the job. The 7700's special paper calibration feature handles newsprint, bond paper, gloss, cardstock and even envelopes with brisk efficiency and exceptional colour fidelity. It accepts page sizes from postcard to **A3 plus bleed**.

The 7700 has all of the most powerful productivity features developed over years of experience in manufacturing award-winning colour printers. Graphics features include booklet printing, Proof Print, and the PhaserPrint plug-in for PhotoShop. And it fits into the office on-demand environment with stapling, collating, print offsetting, N-up printing, Secure Print, Saved Print, and Fax-friendly black.

CentreWare IS Embedded Web Server provides simple printer management for all of your network devices. You'll save time with configuration cloning and automatic installation, while MailInX e-mail alerts tell you everything you need about consumables status, printer configurations, job accounting, and automated support.

For enterprise-level printer management, server-based CentreWare Web software makes it easy for IT administrators to install, configure, obtain reports, and troubleshoot all Xerox and non-Xerox network devices simultaneously.

PrintingScout (instant pop-up Help), PhaserSMART™ (extensive online interactive support) and a full one-year on-site warranty are your seal of assurance that your printer will be on-line, all the time.

high performance from start to finish

If you print a lot of multipage documents, you'll find the 7700DX model invaluable. Its High Capacity Feeder **1** holds up to 3,150 sheet of paper and its Finisher **2** speeds and simplifies production by automatically stapling and stacking documents up to 50 pages long.

The 7700DN base configuration comes with two versatile paper input trays (150-sheet multi-purpose tray **3** and a 500-sheet universal tray **4**), automatic 2-sided printing, and an offset catch tray **8**. The 7700GX configuration adds a three-tray lower tray deck **5 6 7** for a total capacity of 2,150 sheets.
