

MIGRATE

True-to-life, tabloid-size color has never been more affordable.

Migrate to the Phaser® 7700 Printer—any model—and get \$1,000* back from Xerox!

The first single-pass, tabloid color laser to nail both image quality and speed, the Phaser 7700 printer is truly an over-achiever. Poised for performance, this printer is versatile enough to meet the toughest demands – from your everyday office spreadsheets and reports to your more graphics-intense files. With a \$1,000 USD rebate from August 1, 2002–December 31, 2002, it's more accessible than ever.

The Phaser 7700 meets and greets that “get it done yesterday” attitude with 1200 dpi color at 22 pages/minute. That’s nearly four times faster than competitive lasers.

When it comes to persnickety standards, it has you covered with PhaserMatch™ custom color management software and auto calibration for print-to-print consistency. Outstanding media flexibility allows for 11x17 full bleed and standard auto-duplexing, while an optional finisher/stacker, satisfies nearly any printing requirements.
