Xerox® ColorQube® 8580 Colour Printer

Continuing the Xerox exclusive tradition of advanced cartridge-free Solid Ink, the ColorQube 8580 colour printer is a powerful, no-fuss and waste-conscious printing solution that's simple and highly productive with the advantage of superior colour output.

Your Office, Greener

- **Less waste, less impact.** Packaging for the printer and Solid Ink sticks helps you create up to 90 % less waste, lower Life Cycle energy demand and a smaller carbon footprint than comparable laser printers.

- **Earth Smart print driver settings.** Easy-to-use print-driver gauge allows you to choose the most environmentally conscious print settings.

- **Optimise energy usage.** Intelligent Ready technology learns your work group's usage patterns and moves to low-power mode when you're least likely to use it.

- **Bundled GreenPrint software.** Use the standard GreenPrint tool to help you print only the pages you want for reduced paper and ink usage.

More Colour Performance

- **Incredible detail and halftones.** Xerox® 2400 FinePoint® print resolution ensures exceptional print quality.

- **Always superior colour.** Solid Ink gives your documents rich, vibrant colours on all media, including recycled paper.

- **Wide media range.** Print on everything from plain paper to labels, envelopes, card stock, business cards and glossy media.

- **The colours you expect.** PANTONE® approved solid-colour simulations and our colour correction technology deliver results that always match your expectations.

- **More printing for longer.** A high monthly duty cycle of up to 85,000 images means you'll have a reliable colour printer for many years to come.

- **Print when you're ready.** A first-page-out time as fast as 5 seconds means in most cases your print job's ready by the time you walk to the printer.

- **Accurate results, every time.** True Adobe® PostScript® 3™ and PCL 5c emulation print languages ensure your jobs are consistently accurate.

- **No time lost for colour.** The ColorQube 8580 prints black and white and colour at the same fast speed.

- **Intuitive colour correction.** The Colour By Words feature lets you select desired colour modifications from a simple drop-down list.

The Right Fit for any Environment

- **Choose productivity.** Add more memory to enable a variety of security and time-saving capabilities with a choice of two productivity kits.

- **Easy expandability.** Adding additional media trays increases total media capacity up to 2,200 sheets for periods of high workload and enables multiple tray sources for your diverse office printing needs.

- **Save shipping costs and storage space.** Compared to toner, Solid Ink's smaller packaging costs less to ship and is small enough to fit in a desk drawer.

- **Apple® AirPrint.** Simplify printing of email, photos and important office documents directly from your Apple products with no drivers to install.

- **Mopria® certified.** Mopria certification simplifies the mobile printing experience for tablets and smartphones to many printing devices, including the ColorQube 8580.

- **The optional Xerox® Wireless Print Solutions Adapter** seamlessly connects your Xerox® printer or multifunction printer to modern mobile and desktop workflows, regardless of your office environment. For more information, visit **www.xerox.com/WPSA**.
