Xerox® ColorQube® 8870 Colour Printer

The ColorQube 8870 colour printer means big savings on colour printing thanks to its incredibly low total cost of ownership. You get a powerful, no-fuss and waste-conscious printing solution that delivers exceptional colour quality, consistently.

Your Office, Greener

- **Less waste, less impact.** Packaging for the printer and solid ink sticks helps you create up to 90 % less waste, up to 30 % lower lifecycle-energy demand and a carbon footprint that's up to 30 % smaller than comparable laser printers.

- **EarthSmart print driver settings.** Easy-to-use print-driver gauge allows you to choose the most environmentally conscious print settings.

- **Optimise energy usage.** Intelligent Ready technology learns your workgroup's usage patterns and moves to low-power mode when you're least likely to use it.

- **Bundled GreenPrint software.** Use the standard GreenPrint tool to help you print only the pages you want for reduced paper and ink usage.

True Cost Savings

- **Colour for black and white prices.** With the ColorQube 8870 you can afford to print all your documents in attention-grabbing colour.

- **The print volume advantage.** If you print at least four reams of paper each month, the ColorQube 8870 will deliver a total cost of ownership that's hard to beat.

- **Save shipping costs and storage space.** Compared to toner, solid ink's smaller packaging costs less to ship and is small enough to fit in a desk drawer.

- **Spend less on paper and ink.** Get standard two-sided printing and the N-up feature, which prints multiple pages on a single sheet.

More Colour Performance

- **Fast print speed.** Get your jobs out quickly – as quick as 40 ppm colour and black and white.

- **Always superior colour.** Solid ink gives your documents rich, vibrant colours on all media, including recycled paper.

- **The colours you expect.** PANTONE® approved solid-colour simulations and Xerox® colour correction technology deliver results that always match your expectations.

- **More printing for longer.** A high monthly duty cycle of up to 120,000 images means you'll have a reliable colour printer for many years to come.

- **Print when you're ready.** A first-page-out time as fast as 5 seconds means in most cases your print job's ready by the time you walk to the printer.

- **Easy expandability.** With the ColorQube 8870 it's easy to add memory for more time-saving features and expand paper capacity to 2,200 sheets.

- **Intuitive colour correction.** The Colour By Words feature lets you select desired colour modifications from a simple drop-down list.

- **Works in your environment.** Get full compatibility with Windows, Mac and Linux environments.
