Xerox® ColorQube® 8870 Colour Printer

The ColorQube 8870 colour printer means big savings on colour printing thanks to its incredibly low total cost of ownership. You get a powerful, simple and an environmentally friendly printing solution that delivers exceptional colour quality, consistently.

True cost savings

- **Colour for black and white prices.** With the ColorQube 8870 you can afford to print all your documents in attention-grabbing colour.

- **Pay for the colour you use.** With flexible pricing plans you'll stop paying expensive per-page prices for low-coverage documents.

- **The print volume advantage.** If you print at least four reams of paper each month, the ColorQube 8870 will deliver a total cost of ownership that's hard to beat.

- **Save shipping costs and storage space.** Compared to toner, solid ink's smaller packaging costs less to ship and is small enough to fit in a desk drawer.

- **Spend less on paper and ink.** Get standard two-sided printing and the N-up feature, which prints multiple pages on a single sheet.

More colour performance

- **Fast print speed.** Get your jobs out quickly – up to 40 ppm colour and black and white.

- **Always superior colour.** Solid ink gives your documents rich, vibrant colours on all media, including recycled paper.

- **The colours you expect.** PANTONE® approved solid-colour simulations and Xerox colour correction technology.

- **More printing for longer.** A high monthly duty cycle of up to 120,000 images means you'll have a reliable colour printer for many years to come.

- **Print when you're ready.** With a first-page-out-time as fast as 5 seconds.

- **Easy expandability.** With the ColorQube 8870 it's easy to add memory for more time-saving features and expand paper capacity to 2,200 sheets.

- **Intuitive colour correction.** The Colour By Words feature lets you select desired colour modifications from a simple drop-down list.

Your office, greener

- **Less waste, less impact.** Packaging for the printer and solid ink sticks helps you create up to 90 % less waste, lower Life Cycle energy demand and a smaller carbon footprint than comparable laser printers.

- **Earth Smart print driver settings.** Easy-to-use print-driver gauge allows you to choose the most environmentally conscious print settings.

- **Intelligent operation.** Intelligent Ready feature learns your usage patterns to optimise power consumption and productivity.

- **Bundled GreenPrint software.** Use the standard GreenPrint tool to help you print only the pages you want for reduced paper and ink usage.
