PWGSC's definition of the Installation as per Part B, Section 9, Paragraph 2-h)

Installation upon Request: On-site installation must be available for all Products to be delivered within a radius of 100 km of any city or town with a population of at least 30,000 (except CLCA areas). The Contractor must install the Products if installation is requested in the Call-up. On-site installation includes Product set-up at the installation site and ensuring that the Products are functioning in accordance with the Technical Specifications and the Product Details. The Contractor is responsible for maintaining all work areas at the installation site(s) in a clean and tidy condition on completion of each day of work and on completion of acceptance, including the removal and disposal of all related packing material in accordance with industry standards and the Environmental Requirements set out in Annex B. The installation of the Product is subject to the firm installation price set out in the Best Value Grid on the date of the Call-up.
