

# Your Business, Your Choice

Our award-winning print technologies are affordable for businesses of all sizes, whether you need a printer or an MFP.

Printer

VS

MFP

#### A printer may be the right choice for your business if:

- you need increased speed and image quality
- you want to produce colorful, graphics-rich materials with advanced finishing requirements
- you could support your existing print network to meet a higher monthly print volume

#### Recommended Color Printers:

Get fast performance, crisp image quality and easy-to-use features.

Phaser® 6130

Phaser 6180

Phaser 8560

#### A multifunction may be the right choice for your business if:

- you're ready to consolidate office equipment (copy, fax & scan), saving space and money
- you want to simplify management of services, support, and supplies
- you need to locate more critical tasks closer to workers, enhancing workflows and increasing collaboration

#### Recommended Color Multifunction Printers:

Handle more office tasks – print, copy, scan and fax – with one compact device and save.
