

Xerox® MFPlus
Scanning Solution™
For healthcare

Xerox MFPlus: Spend more time helping patients.

In the healthcare industry, organized, accurate and secure record-keeping is critical. But due to the sheer volume of paper involved, implementing an efficient and cost-effective document management system can be difficult to achieve.

And because of multiple factors—such as competition, profitability and regulations—doctors and other healthcare providers need fast access to complete and accurate patient data in order to make the best decisions.

Let Xerox MFPlus help.

Xerox MFPlus offers the entire healthcare industry an affordable, all-in-one scanning solution that converts traditional paper-based processes into efficient, healthcare-specific digital workflows—saving time, increasing security and streamlining the storing and sharing of important medical documentation.

Managing documents with Xerox MFPlus allows you to:

- **Reduce medical errors.** Create fully text searchable electronic files of your hard copy medical records, literature and current best practices for fast access to the timeliest information.
- **Reduce overhead costs.** Eliminate paper clutter for improved staff efficiency while devoting less office space to physical storage of hard-copy records and documents.
- **Create healthcare-tailored workflows.** Intuitive color touch screen provides fast, icon-based access to tasks specific to your workflow needs.
- **Streamline document routing.** Create personalized scan menus, retrieve scanned files, and route documents to recipients, such as insurance companies and vendors, quickly and easily — all from the multifunction device.
- **Expedite collaboration.** Patient records can quickly be routed to other practitioners for timely sharing, improved accuracy and more effective care.
- **Ensure compliance with HIPAA privacy and security regulations.** Xerox MFPlus workflows help ensure that private, confidential patient records are safely routed over your network to a secure file repository.
- **Do more with one office device.** Scan, print, copy, fax and email with one cost-effective solution.

Healthcare professionals spend 30% of their time working with paper documents—lost time that could be spent working with patients.

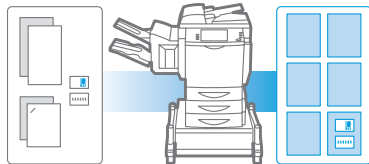

The large, color touch screen on the Xerox MFPlus allows fast access to intuitive, healthcare-specific workflows.

Xerox MFPlus: A new solution to an old process.

Streamline doctor-to-doctor collaboration.

Old Process

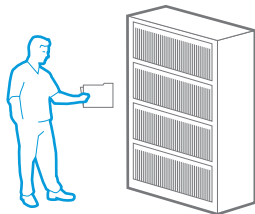

1 Medical forms, insurance card and other documents are assembled and copied.

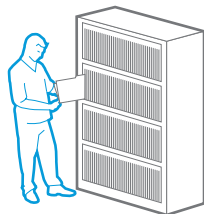

2 Patient folder is manually created.

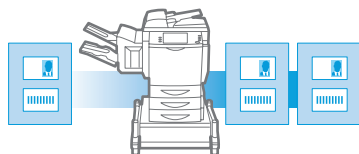

3 Patient folder is manually filed.

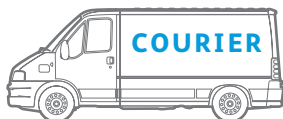

4 Manually search for and retrieve patient folder.

5 Make copies of documents for review by outside medical specialist.

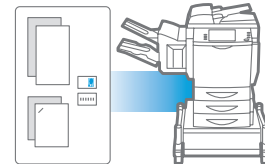

6 Send documents to outside medical specialist via courier.

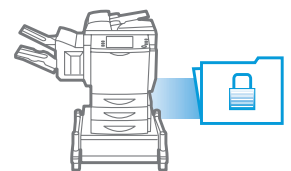

Total time: 2 days

MFPlus Process

1 Medical forms, insurance card and other documents are assembled and scanned using Xerox MFPlus and a pre-selected workflow.

2 Xerox MFPlus automatically stores the documents in a secure network folder in any desired output format, such as text searchable PDF/A file.

3 Select 'Scan to Email' on the Xerox MFPlus color touch screen, enter email address, and attach desired documents as PDF files for immediate sharing with outside medical specialist.

**Total time:
less than 15 minutes**

Advanced file management technology

Xerox MFPlus greatly reduces document processing time with its powerful Optical Character Recognition technology. Using template-based scanning, a medical office employee simply selects specific "zones" on a document from which data is captured and used for file naming, creating network folders, populating PDF properties, searching and retrieving, and routing scanned documents to their correct repositories.

Xerox® MFPlus Scanning Solution™ For healthcare

Your Path to a Greener Office

Because of its all-in-one design, the Xerox MFPlus solution lets your office consolidate standalone printers, copiers, scanners and fax machines into a single, cost-effective network multifunction device. Productivity goes up while electricity, paper and toner consumption go down, benefitting not only your bottom line, but the environment as well. Plus, with the Xerox MFPlus solution's advanced workflows, you'll further reduce paper usage by scanning and emailing digital copies instead of printing and mailing or faxing hard copies.

	WorkCentre 6400SFS
Speed	Up to 32 ppm color / 37 ppm black-and-white (Letter)
First-page-out-time	As fast as 16 seconds
Print	
Print resolution	Up to 2400 x 600 dpi
Processor / Memory	800 MHz / 1 GB plus 80 GB hard drive
Connectivity	USB 2.0 (for print only), 10/100/1000 Base-TX Ethernet, IPv4 and IPv6
Scan	
Scan destinations	Scan to Mailbox, Scan to Email, Scan to File, Scan to Home
Scan features	Up to 600 x 600 dpi, File formats: PDF, Searchable PDF, TIFF, Multi-page TIFF, JPEG
Security	Disk Overwrite, Job Overwrite, Disk Encryption, 802.1X, Secure Print, Authentication, Secure Fax
Warranty	One-year on-site warranty, Xerox Total Satisfaction Guarantee
