

Xerox® PrintSafe Software

Authentication within reach.

Xerox® PrintSafe Software provides security for printed data on your multifunction printers including both Xerox® devices and devices from other vendors. As a software-only solution, it's an affordable option for any business.

Realize additional cost savings, because there is no proprietary associated software that needs to be purchased, enabling you to leverage existing authentication readers or purchase them from a preferred card reader vendor.*

Key Features

- **Always ready.** Enables print access to any printer at any time.
- **Save time. Save money.** Allows the user to choose what to print and when and the ability to delete or make changes to documents prior to printing. Reducing costs related to printing outdated or unnecessary documents. As a result toners costs associated with avoidable printing will also be reduced.
- **It's not complicated.** Easy to learn and use, it works with the technology that the user is already accustomed to accessing for printing documents.
- **Integrated.** Provides the flexibility to print across devices, not just one brand and to print anywhere on the network.
- **Seamless setup.** This authentication software solution leverages existing technology making implementation easy. Also, it's completely compatible with print workflows, alleviating any disruption to everyday printing.

Secure

- **Easy integration.** Allows for card swipe integration across multiple industry vendors with the added bonus of optional integration using PIN authentication.
- **Protected print workflows.** Xerox® PrintSafe Software provides maximum data security for your most valuable assets.
- **Simple and secure.** A single authentication step allows access to multiple Xerox® device functions.

Affordable

- **Low maintenance.** This software only solution requires a minimal investment of time from IT, is easy to install and integrates easily with most industry devices.
- **Multiple cost savings.** Affordable for any business size, there are no hidden costs, a variety of custom bundled choices are available and there's no additional charge for convenient printing (pull printing).
- **Integration.** Xerox® PrintSafe Software integrates with your current accessories and servers.

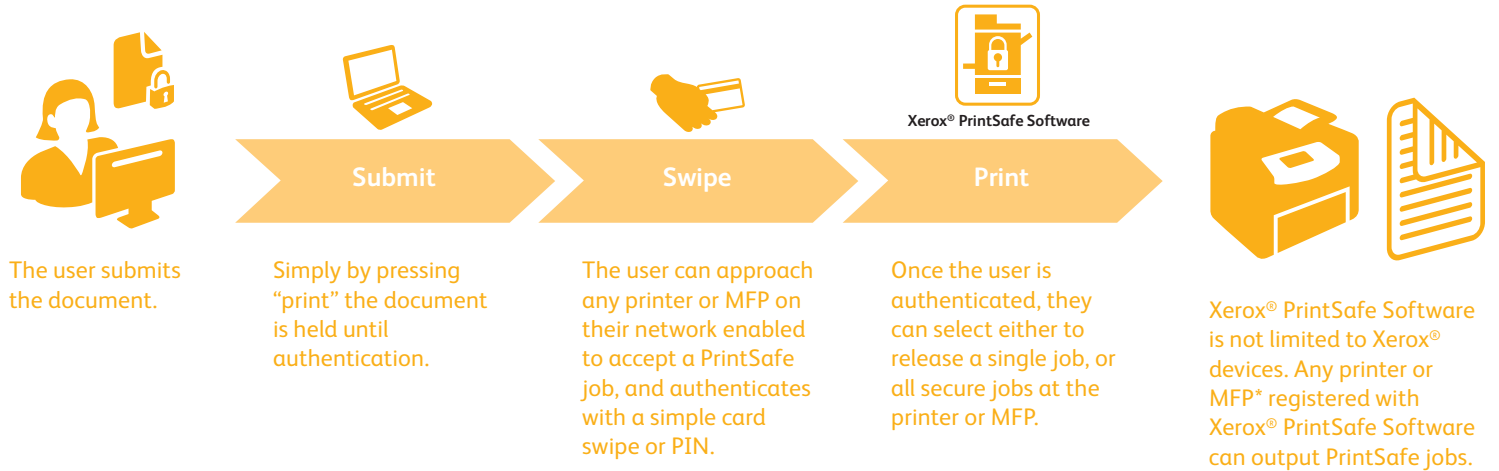

Flexible

- **Multifaceted solution.** An authentication solution that helps minimize your software footprint. Supporting both Xerox and other industry print devices enabling it to grow with your businesses as devices are added to your network.
- **Available at a moment's notice.** Print anywhere, on any device that's integrated into the network.

*A large variety of industry card readers are supported with Xerox® PrintSafe Software. Industry card readers will vary by print device. Check with your local Xerox Sales Representative for details.

Secure, Convenient and Flexible Print Workflows

Flexible workflows allow the user to load software on their PC client for direct printing or onto an existing print server, which can easily be configured for Xerox® PrintSafe Software.

View a video.

* Non-Xerox® devices require a network accessory; see your Xerox Sales Representative for details on the makes/models supported.
