

Solid Ink Printers and  
Multifunction Printers

Xerox® ColorQube Printers  
and Multifunction Printers  
It's time to rethink your ink.

# Xerox® Solid Ink Printers and Multifunction Printers

**Only Xerox can deliver on the promise of affordable colour for every document, every day.** Xerox has the patented Solid Ink technology to make it practical. Built from the start for high-performance office colour printing, our Solid Ink technology has a 20-plus-year track record of reliability. Solid Ink is simple to use, produces stunning colour print quality, produces less waste, and enables low cost colour for small businesses and global corporations alike. Give your team the full advantage of Solid Ink, and get every Xerox innovation and advanced feature across our lineup of Solid Ink printers and multifunction printers.

Spectacular colour quality, more affordable than ever. That's Xerox® Solid Ink.

We make it possible. You get the credit.

## The Solid Ink Lineup

Great colour, low environmental impact and advanced ease-of-use for your work team.

ColorQube 8570

Incredibly low total-cost-of-ownership for high volume office environments.

ColorQube 8870

ColorQube 8900

ColorQube 9301/9302/9303

## Make everyday business more colourful.

**In the business world, nothing's really black and white.** That's why you need colour – to clarify, to emphasise, to stand out. And with our lineup of ColorQube Solid Ink printers and multifunction printers, colours are vibrant, glossy and perfect for all office documents when the “right” colours are a must.

- **Consistent colour.** No other technology delivers such exceptionally consistent colour, print after print – important for long print jobs or multiple prints of the same page. Solid Ink also prints consistently printer to printer. That means documents printed at the branch office look exactly as they do when printed at headquarters.
- **More colour possibilities.** Xerox® Solid Ink prints a wider range of colours than most colour laser devices. Count on Solid Ink technology to accurately print the colours you expect, with the smoothest blends and gradients – even tricky mid-tones like sky and skin.
- **Professional-quality colour matching.** When colour accuracy is a must, built-in PANTONE® spot-colour correction tables ensure quick and easy PANTONE colour matching. Get true renditions of important business colours – like your logo.

Original photo not right? Use the Colour By Words drop-down list and choose “yellow-green colours a lot more green,” and “red colours a lot more saturated.” Picture-perfect results.

### Colour By Words: Unique colour control

Have you ever wanted to change the colour of one object or area in a printout without affecting the rest of the page? With the Colour By Words feature there is no need to go back to square one and manipulate source files. You simply select the desired colour modifications from a drop-down list, and Colour By Words will adjust your printout.

Solid Ink: 8.6 kg; Laser: 101.2 kg; Total waste produced from printing 4,000 pages per month for 4 years.

## Make your office greener.

**It's all made possible with Xerox® Solid Ink**, the office colour solution with a cartridge-free design and minimal packaging. That simple combination means less to manufacture, drastically reduced waste, and less storage space for better transportation efficiency – saving you shipping costs while lessening the environmental impact\*.

- **Fewer consumables.** No big, bulky print cartridges, or fusers, fuser oil or imaging units found in a typical colour laser printer. Besides Solid Ink sticks the only other replaceable item is a maintenance roller/cleaning unit, which lasts for tens of thousands of pages and only needs to be replaced a few times throughout the life of your device.
- **Think globally. Act locally.** Solid Ink packaging is made from post-consumer waste that can be recycled locally where options are available.
- **EarthSmart print driver settings.** Easy-to-use print-driver gauge allows you to choose the most environmentally conscious print settings.
- **ENERGY STAR® qualified.** All ColorQube devices meet the stringent ENERGY STAR requirements for energy usage.
- **Bio-derived ink.** Xerox® Solid Ink has been certified to have 30% bio-derived renewable material content by the National Association of Printing Ink Manufacturers (NAPIM).
- **Recycled paper welcome.** With Solid Ink, there's no need for "special" recycled paper. Print on any recycled stock – or almost any media, period – and get vibrant, high-quality colour. Plus, Solid Ink printouts are completely recyclable.
- **Bundled GreenPrint software.** The standard GreenPrint tool automatically detects unnecessary pages, such as those with only a web address or a meaningless picture, and lets you select the pages you actually need to print, helping you reduce paper and toner usage.
- **Efficient printing.** The Solid Ink imaging process is extremely efficient, producing nearly 100 per cent ink-to-page transfer during normal printing.

\*Cartridge-free Solid Ink: Less to manufacture, no empty toner cartridges to dispose or recycle, and less storage space required than comparable laser devices. Solid Ink printers produce up to 90 per cent less printing waste during use than comparable laser devices.

## Business-enhancing ease of use and security.

**Superior colour made easy.** Whether you need robust printing or the additional capabilities that come with a true multifunction powerhouse, our ColorQube devices make office life easier, and more secure, than ever. And with work group-pleasing productivity as the benchmark, you're assured that every feature, function and design consideration exists to help your staff happily produce its best work, securely.

- **Your solid advantage.** Xerox® Solid Ink sticks are cartridge-free and engineered for maximum ease of use. Each Solid Ink colour is uniquely shaped for easy drop-in loading, and ink can be topped off at any time – no downtime to reload.
- **No mess.** Solid Ink is non-toxic, safe to handle, and won't stain clothes, skin or furniture.
- **Easy administration.** Xerox® CentreWare® Internet Services, a web server built into the device, simplifies installation, cloning and network administration, and provides quick access to device and job status, accounting information and online support.
- **Save valuable real estate.** Solid Ink packages are small enough to easily fit in your desk drawer. There's no need to take up an entire cabinet with printer supplies.
- **Ready when you are.** Our Intelligent Ready technology monitors usage history and automatically warms up just before the first page of the day is anticipated.
- **Erase sensitive information.** Hard disk overwrite electronically erases image data stored on the hard drive.
- **Keep documents safe.** Ensure your data stays secure with AES 256-bit encryption that meets current FIPS 140-2 requirements, and require a password to open and view a sensitive document by scanning to password-protected PDF.
- **Prevent unauthorised access.** Restrict usage by validating user names and passwords with Network Authentication. Additionally, Xerox® Smart Card Authentication options require card-based identification to protect the device from unauthorised users.
- **End-to-end protection.** Ensure device security with full system Common Criteria (ISO 15408) certification (pending). And with Xerox's proactive response system, quick updates are provided whenever potential vulnerabilities are identified.

### Xerox® Workflow Solutions make your office more productive

Transform the way your organisation gets vital work done with the power of Xerox® Workflow Solutions. When people work efficiently, in less time and with fewer steps, productivity goes up. Stress goes down. So do errors. Whether you have only a few people on your team or a very large work group, Xerox offers a wide range of MFPs that deliver flexibility and advanced features to copy, print, scan and fax—all from one device. It's about streamlining your workflow and it starts by using Xerox® Workflow Solutions right from your MFP.

# Print more colour for less.

If you print lots of pages and lots of colour, Xerox® Solid Ink printers and multifunction printers can help you realise significant savings on 70% of the colour printing you do every day. You get exceptional value, with a total cost of ownership that's hard to beat.

And when you choose the ColorQube 8870, ColorQube 9301/9302/9303 or ColorQube 8900, how you pay for the Solid Ink you use is completely up to you, with two breakthrough cost saving options to choose from: Hybrid Colour Plan or pay as you go.

## Hybrid Colour Plan

If you like the simplicity of metered billing, choose the ColorQube 8870, ColorQube 9301/9302/9303 or ColorQube 8900, and take advantage of high-impact colour with the Hybrid Colour Plan. It classifies documents based on the actual amount of colour used – no more paying full-colour prices for low-colour documents!

The three tiers of the Hybrid Colour Plan:

- **Black + Useful Colour.** Billed at the black-only rate.
- **Everyday Colour.** Billed at slightly more than the black-only rate.
- **Expressive Colour.** Billed at the current market rate for colour.

## Hybrid Colour Plan

## Typical office document colour distribution

Office colour documents can be classified by the amount of colour used. According to Xerox research, the breakdown of colour documents in a typical office environment is:

## Pay as you go

If you prefer replenishing your Solid Ink as you need it with no monthly commitment, consider paying as you go with the ColorQube 8870 or ColorQube 8900 – and get colour for the cost of black and white. It's time to say hello to the power of colour in every office document you produce. And say goodbye to worrying about how much it costs. Colour printing. Black and white price. It's that simple.

## Pay as you go
