The ColorWorks PRO Plus Booklet Maker is the first all-in-one document finisher designed for digital color finishing. It produces professional quality color booklets inline with the Xerox® Versant™ 2100 Press and the Xerox® Color 800/1000 Presses. The ColorWorks PRO combines booklet making, cover feeding, bleed trimming, creasing, stitching, folding, face trimming and stacking into one fully integrated system. It runs at rated press speed for most applications, making the ColorWorks PRO ideal for variable data, ultra-fast turnaround work.

**Features**
- **Cover Feeder**—Supports cover insertion and offline feeding of pre-collated sets.
- **Feed Drawer**—Can be used to feed pre-collated sheets in offline mode.
- **Channel Scoring**—Prevents image cracking and creates flatter folded booklets. Multiple scoring for perfect bound covers and tri-fold leaflets.
- **Bleed Trimming**—Removes excess paper from head and foot of sheets for edge-to-edge color.
- **Face Trimming**—Cuts fore-edge of booklet for professional quality booklets.
- **Folding**—Tight, accurate half-folding with operator-accessible skew adjustment.
- **Professional quality stitching**—With 5,000-count user-replaceable staple cartridge and adjustable stitch distance.
- **Internal Booklet Stacker**—Allows booklets to be unloaded while running for non-stop production.
- **Catch Tray**—Receives staple only or flat-sheet documents.

**Benefits**
- Supports affordable, automatic production of booklets with a professional look and feel.
- Offers versatile configurations of stapled and/or folded booklets of various sizes and types such as newsletters, manuals, catalogs, reports and collateral.
- Improves turnaround times, reduces operating errors and labor costs by consolidating multiple offline production steps.
- Streamlines operation via simple color icon-based touchscreen controls.
  - End-to-end automation for quick setup without specialized operating skills.
  - Stores up to 20 job profiles for fast recall of setup parameters.
  - Error codes, icons and diagrams enable efficient jam/fault recovery.
- Automatically scores tri-fold brochures and channel-scores perfect bound book covers.
- Cover feeder can be used to feed pre-printed sheets, for productive offline document finishing.
- Stacker can be unloaded while running for non-stop productivity.
