Production performance with colour impact for the office

Productive, flexible and easy to use. The Xerox WorkCentre® 7655/7665/7675 multifunction system can easily handle the output volumes needed for document-intensive environments. Add to that unrivalled, high-impact colour, and you have versatility that gives your business a clear, competitive edge.

- Extremely fast copy and print speeds up to 75 ppm black and white, and 50 ppm colour.
- Scan colour documents at 50 ppm (80 ppm in black and white) - swiftly scan, retrieve, electronically store and distribute documents.
- Multi-tasking operation means multiple users can simultaneously perform different tasks – scan, copy, print, transmit faxes and manage the queue.
- 2400 x 2400 dpi output resolution means unmatched colour clarity and impact.
- Optional scanning workflows include Scan to PC Desktop, scan to PDF, network file server, email, fax and mailboxes on the device. Scan to Home feature lets you scan to a secure personal directory.
- Improved scan export compression (MRC, JBIG2) reduces network traffic.
- Supports a wide range of media up to 300 gsm, and custom sizes up to SRA3.
- Extensive finishing options, including 100-page stapling, Tri-Folding, Z-Folding, Booklet Making and post-process page inserting.
- Network administrators can "clone" the configuration for simple installation of multiple units.
- SMart Kit™ technology gives you maximum uptime.
- Advanced device management ensures your system runs smoothly.
- Job-based Xerox Standard Accounting software features for greater cost control of printing, copying, faxing and scanning.
