

EFI® Fiery® Network Server WorkCentre® 7425 / 7428 / 7435

When you add an EFI Fiery network server to the WorkCentre 7400 series multifunction device, enabled users have access to powerful printing workflows that deliver exceptional colour, productivity, flexibility and security.

World-class colour

Ideal for any business that wants to take its in-house design capabilities to a new level, the EFI network server includes a wealth of easy-to-use colour management tools that enable unmatched colour quality from all applications, platforms and formats.

- 2400 x 1200 dpi print resolution for outstanding detail and clarity.
- PANTONE® Color Calibrated certification ensures you get precise colours, every time.
- Fiery ColorWise® offers standard-setting colour tools and user flexibility.

Superior workflows

Powerful productivity features and workflow tools further enhance your printing capabilities.

- A 1.86 GHz processor and 512 MB memory deliver the power to handle even the most complex print jobs.
- Command WorkStation® via PC or Mac, with Queue Management and Job Preview, makes it easy to programme, monitor and manage your office workflows.
- Variable data printing capabilities enable you to customise your output to a target audience.
- The Fiery RIP-and-Print utility streamlines the print-job processing workflow in office environments.
