

Phaser® 240 Color Printer

Uncompromised quality,
speed, and value.

Courtesy Freightliner Corporation

The forerunner to the exceptional Phaser 240 has been recognized for outstanding performance by leading industry magazines.

Presenting Your Best Image

Nothing adds more impact to your presentations and reports than color. Color is a clear advantage and the Phaser 240 delivers the high-performance color printing required for workgroup applications.

The Color Printer Built For Your Workgroup

Networking: The Phaser 240 includes genuine Adobe™ PostScript™ Level 2. Share it with PCs, Macs, and workstations. Ethernet is available in Novell® NetWare®, EtherTalk™, and TCP/IP™ protocols. All ports are simultaneously active. Just send your job to print and the Phaser 240 automatically switches between ports and protocols.

Speed: At two pages per minute it's fast enough to handle the demands of any workgroup. The Phaser 240 won't tie up your computer with image processing. It's just what you need to keep your workgroup productive.

Multiple Trays: The compact Phaser 240 blends into any office environment. Dual input trays are available for added convenience and efficiency.

There's no need to leave your computer; with two input trays you can choose to print on transparencies or paper right from your keyboard.

High Capacity: With the Phaser 240 you can make 342 color prints from a single transfer roll. The Phaser 240 provides unattended operation so you can focus your attention on your project, not your printer. With our exclusive ColorCoat™ transfer roll you can even make color prints on common office laser papers.

Why Settle For Less Than The Best?

It's true, the Phaser 240 prints beautiful, 300 dots-per-inch color output on common office laser papers. But we've taken thermal-transfer technology to the next level. Just add 8 Mbytes of memory to enable TekColor SuperCell 600™: color printing with user-selectable 600 x 300 dpi resolution. SuperCell 600 improves every aspect of the printed page – sharper details, higher contrast, smoother shading, and more saturated color. To arrange for a demonstration to see what a Phaser 240 can do for your workgroup, call your dealer today.

Phaser® 240 Color Printer Specifications

Color Technology 300 dpi, thermal-transfer color printer. Add 8 Mbytes of RAM to print at 600 x 300 dpi resolution. EPA Energy Star-certified for low energy consumption.

Print Speed 2 pages per minute at 300 dpi, 1 page per minute at 600 x 300 dpi.

Color Control TekColor™ Dynamic Correction simulates the colors on your computer monitor, adjusts colors for the brightest transparencies, or simulates the output of commercial printing presses. PANTONE®*-approved solid color simulations, CIE international color standards, and support for ICM and Apple ColorSync color management systems.

Memory 5 Mbytes standard, expandable up to 21 Mbytes.

Network Interfaces *Standard:* Parallel and LocalTalk; *Optional:* Internal Ethernet interface with support for EtherTalk, Novell NetWare, and TCP/IP protocols; all ports are simultaneously active with automatic print queue management.

Controller 16-MHz RISC processor with interleaved memory.

Language Genuine Adobe™ PostScript™ Level 2 to ensure compatibility with leading PC and Mac software programs. Also supports HP-GL emulation, and monochromatic PCL®5.

Fonts 17 resident fonts, expandable to 39; additional fonts may be downloaded in memory; built-in support for PostScript Type 1, Type 3, and TrueType™ fonts.

Workgroup Connectivity Windows/DOS PCs, IBM OS/2, Macintosh, and workstations.

Printer Drivers *Standard:* PC and Macintosh.

Optional: Workstation—Sun, Silicon Graphics, Hewlett-Packard, IBM, and DEC.

Media Letter-size and A4-size Tektronix thermal papers and transparencies. Print on common laser paper using a ColorCoat transfer roll. Input tray capacity: 100 sheets of paper, 50 sheets of transparencies.

Lower Tray Assembly Optional assembly includes support for a second input tray.

Media Size and Image Area Perforated letter-size: 8.1 x 10.6 in. image area; Letter: 8.1 x 10 in. image area. Perforated A4-size: 200 x 287 mm image area; A4: 200 x 271 mm image area.

Transfer Roll Capacity 3-Color: 342 prints per roll; ColorCoat: 214 prints per roll; Black: 880 prints per roll.

Warranty/Support Our comprehensive support system TekColor Care, includes toll-free technical support, a user newsletter, on-demand fax reference library, online services, and a one year warranty (return-to-depot in country of original purchase).

* Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

Ordering Information Phaser 240

Includes: Input tray for perforated media; power cord; media start-up kit with perforated paper, transparency film, and sample 3-Color transfer roll; installation instructions; user manual; cleaning kit; utilities and drivers on diskette; instruction manual. Product order number Z240/A

Options

Metric Media Start-up Kit

A4-size media and A4-size input tray, in place of U.S. standard. Order Option 01

Lower Tray Assembly (for dual input trays)

Order 4681FTA

Add 4-Mbytes of RAM

(For a total of 9 Mbytes) Additional memory provides faster image processing and additional font storage. Order 4690F4M

Add 8-Mbytes of RAM

(For a total of 13 Mbytes) Adds support for SuperCell 600, color printing at 600 x 300 dpi. Order 4681F8M

Add 16-Mbytes of RAM

(For a total of 21 Mbytes) Maximum memory for the fastest possible image processing and font download. For the most demanding applications. Order 4685F16

Add 22 Fonts

Add 22 fonts for a total of 39. Order 4681F1F

Laser Paper Start-up Kit

ColorCoat transfer roll, letter size paper tray, 500 sheets perforated premium laser paper. Order 4681F5S

Order Option 01 for metric (A4 size) Laser Paper Start-up Kit

Novell, EtherTalk Ethernet

Ethernet interface with support for Novell NetWare and EtherTalk protocols. Order 4680FP1

TCP/IP Ethernet

TCP/IP protocol support for Ethernet interface (requires 4680FP1). Order 4680FP2

RealSUPPORT™ Service Options

Installation and set-up. Order Option 46S0

One year of On-site Service. Order Option Z240S1

Two years of On-site Service. Order Option Z240S2

Three years of On-site Service. Order Option Z240S3

Three years of RealSUPPORT Express Exchange service provides 48-hour replacement of a Phaser 240 via overnight express. Order Option Z240E3
