How to Access AS/400 Workstation Customization Object and an Alternative for IPDS Printing

Overview

The Work Station Customization Object (WSCO) is a tool that receives parameters from an AS/400 driver and translates them to PCL code. The Xerox device receives the PCL code and creates output that follows the parameters indicated.

The XTOOLSxxxx library provides a source WSCO for each Xerox device supported.

Note: XTOOLSxxxx indicates the current WSCO version (xxxx is replaced by the release number of the library you download).

The library also contains commands that simplify the processes of compiling the WSCO and creating device descriptions or remote queues.

The WSCO and a guide that contains installation and other information as well as the alternative for IPDS printing are available for download from Xerox.com.

Audience

The guide provided with the WSCO targets system administrators familiar with the AS/400 environment. A system administrator should plan to install the WSCO without requiring assistance from Xerox field personnel.

Xerox Support

Contact Customer Support for Phaser products at 1-800-835-6100. The guide included with the WSCO lists the Phaser products supported.

For information about WSCO support of Document Centre products, contact Customer Support.

You can reach Xerox Customer Support for Document Centre, WorkCentre, and WorkCentre Pro products at 1-800-821-2797 (USA), TTY 1-800-855-2880 or at <http://www.xerox.com>.

	DC 220/230

Accessing the WSCO

Use the following procedure to access the WSCO on xerox.com.

1. On the Xerox home page, select **Drivers & Downloads**.

The screenshot shows the Xerox homepage. At the top left is the XEROX logo. To its right, it says "United States" with a globe icon and a "Change Country" link. Further right is a search bar and a "Products A-Z Index" link. Below this is a navigation bar with links for "Where to Buy", "Contact Us", "Log In/My Xerox", "Account Management", and "Shopping Cart". The main navigation menu includes "Office Equipment", "Production Equipment", "Services & Outsourcing", "Supplies", and "Support & Drivers". The "Support & Drivers" link is highlighted with a black box and an arrow. Below the navigation bar, there are several promotional banners: "Featured Products & Services" with links to various printer models, "Xerox Supports South Asia Earthquake Relief" with a map and a link to a relief website, and "Chester Award" for kids with innovative ideas. At the bottom, there is a "Find a product or service" section with a grid of links for various product categories like Office Printers, Office Copiers, Office Multifunction, Office Fax, Office Services, High Volume Production, Digital Production Presses, Workflow, Wide Format Solutions, Print Production Services, Supplies, Services Portfolio, Software, Computer Monitors, and Scanners and Projectors.

2. On the Support & Drivers page, make a selection for product type and family then scroll to one of the supported devices and select **Drivers & Downloads**.

The screenshot shows the Xerox Support & Drivers page. At the top left is the XEROX logo. To its right, it says "United States" with a globe icon and a "Change Country" link. Further right is a search bar and a "Products A-Z Index" link. Below this is a navigation bar with links for "Where to Buy", "Contact Us", "Log In/My Xerox", "Account Management", and "Shopping Cart". The main navigation menu includes "Office Equipment", "Production Equipment", "Services & Outsourcing", "Supplies", and "Support & Drivers". The "Support & Drivers" link is highlighted with a black box and an arrow. Below the navigation bar, there is a search bar with the text "Enter product name or number" and a "search" button. Below the search bar, there is a section titled "OR, Select product below" with three columns: "1. Select Product Type", "2. Select Product Family", and "3. Select Model". The "1. Select Product Type" column has a list of product types, with "Multifunction" selected. The "2. Select Product Family" column has a list of product families, with "WorkCentre Pro" selected. The "3. Select Model" column has a list of product models, with "WorkCentre Pro 265/275" selected. The "Drivers & Downloads" link for the selected model is highlighted with a black box and an arrow.

- In the **Operating System** box select **IBM AS/400**. Leave the language as **English**. Click **Go**.

The screenshot shows the Xerox Support & Drivers website. The page title is "Support & Drivers" and the sub-header is "WorkCentre Pro 265/275 Drivers and Downloads". The "Operating System" dropdown menu is set to "IBM AS/400" and the "Language" dropdown menu is set to "English (US)". A "GO" button is visible to the right of the dropdowns. The page also features a search bar, navigation links for "Office Equipment", "Production Equipment", "Services & Outsourcing", "Supplies", and "Support & Drivers", and a sidebar with "Product Support Resources" and "Other Support Resources".

- The WSCO link appears.

The screenshot shows the Xerox Support & Drivers website with the "Operating System" dropdown menu set to "IBM AS/400" and the "Language" dropdown menu set to "English (US)". The "GO" button is visible. Below the dropdowns, the text "Use CTRL/Command to select more than one" is displayed. The page also features a search bar, navigation links for "Office Equipment", "Production Equipment", "Services & Outsourcing", "Supplies", and "Support & Drivers", and a sidebar with "Product Support Resources" and "Other Support Resources". A blue banner at the bottom of the page reads "Drivers: IBM AS/400" and "AS/400 Workstation Customization Object (WSCO) for Xerox Products". Below this banner, the text "Version: 0202 Date: 12/22/2005 Size: 423.4KB Language: English (US)" is displayed, followed by a description of the WSCO library.

- Select the WSCO link and follow the instructions to download it. After downloading, unzip the file and read and follow the instructions in the document it contains, *AS/400 Workstation Customization Object Installation and Setup Guide and Alternative for IPDS Printing for Xerox Office Products*.
