

Xerox® ColorQube® 8870 Color Printer

The ColorQube 8870 color printer means big savings on color printing thanks to its incredibly low total cost of ownership. You get a powerful, no-fuss and waste-conscious printing solution that delivers exceptional color quality, consistently.

Your Office, Greener

- **Less waste, less impact.** Packaging for the printer and solid ink sticks helps you create up to 90% less waste, up to 30% lower lifecycle-energy demand and a carbon footprint that's up to 30% smaller than comparable laser printers.
- **EarthSmart print driver settings.** Easy-to-use print-driver gauge allows you to choose the most environmentally conscious print settings.
- **Optimize energy usage.** Intelligent Ready technology learns your workgroup's usage patterns and moves to low-power mode when you're least likely to use it.
- **Bundled GreenPrint software.** Use the standard GreenPrint tool to help you print only the pages you want for reduced paper and ink usage.

True Cost Savings

- **Color for black-and-white prices.** With the ColorQube 8870 you can afford to print all your documents in attention-grabbing color.
- **The print volume advantage.** If you print at least four reams of paper each month, the ColorQube 8870 will deliver a total cost of ownership that's hard to beat.
- **Save shipping costs and storage space.** Compared to toner, solid ink's smaller packaging costs less to ship and is small enough to fit in a desk drawer.
- **Spend less on paper and ink.** Get standard two-sided printing and the N-up feature, which prints multiple pages on a single sheet.

More Color Performance

- **Fast print speed.** Get your jobs out quickly – as quick as 40 ppm color and black-and-white.
- **Always superior color.** Solid ink gives your documents rich, vibrant colors on all media, including recycled paper.
- **The colors you expect.** PANTONE® approved solid-color simulations and Xerox® color correction technology deliver results that always match your expectations.
- **More printing for longer.** A high monthly duty cycle of up to 120,000 images means you'll have a reliable color printer for many years to come.
- **Print when you're ready.** A first-page-out time as fast as 5 seconds means in most cases your print job's ready by the time you walk to the printer.
- **Easy expandability.** With the ColorQube 8870 it's easy to add memory for more time-saving features and expand paper capacity to 2,200 sheets.
- **Intuitive color correction.** The Color By Words feature lets you select desired color modifications from a simple drop-down list.
- **Works in your environment.** Get full compatibility with Windows, Mac and Linux environments.
