

Xerox® Print and Scan Experience App

Easily print and scan with macOS.

The Xerox® Print and Scan Experience App makes printing and scanning easy on macOS.

The Xerox® Print and Scan Experience App helps you install and manage your Xerox® printers on your macOS device and provides unique productivity tools to make your work easier. What's more, updates happen seamlessly to continue enhancing your printing and scanning functionality.

Large, colorful, and intuitive icons on the app dashboard will enable you to choose what you would like to do with your scanned documents. Create your own scan job, tailor the brightness of your document, and view device status – all through a single app.

PRINTER DISCOVERY AND DRIVER INSTALLATION MADE EASY

Once installed on your macOS system, the Print and Scan Experience App automatically discovers nearby Xerox® printers and helps install suitable print and scan drivers.

The Xerox® Print and Scan Experience App is available for all Xerox® Devices. Download it here: <https://www.office.xerox.com/en-us/software-solutions/xerox-print-and-scan-experience-app>.

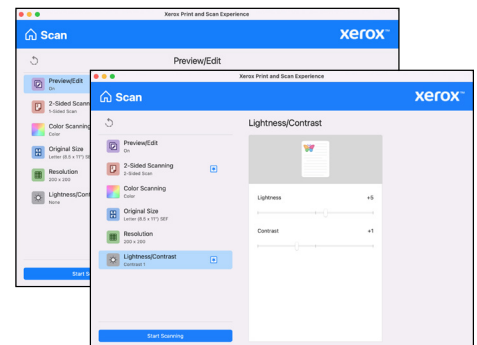

These bi-directional drivers allow easy access to installed options like finishers and their associated functionalities such as stapling, hole punching, etc. Live media and toner levels ensure that the devices are always ready to use.

BENEFITS YOU CAN ENJOY WITH THE APP

- **High productivity and high functionality in a single click:** The Xerox® Print and Scan Experience App is for home users, small businesses, and anyone who owns a Xerox® printer, helping users to be more productive without the need for detailed knowledge. The app will also save you time on the post-scanning work you would usually do.
- **Scans that work for you:** Manipulate your scans by previewing and editing lightness and contrast levels, and deleting and rotating images to ensure scans are best suited for your need.
- **Scanned file size and image quality optimization:** Compress scans to result in different file sizes to meet your needs – lower compression for higher quality images or higher compression for smaller file sizes that need to be emailed.

And choose from different resolutions for crisp text and impressive image quality. Optimize as you wish.

- **Direct PDF printing:** Select Print from the main dashboard to browse and select PDF files, configure desired print settings, and send to print – all from the Xerox® Print and Scan Experience App.
