

Xerox® USB Wireless Adapter

High performance, unplugged.

The high-performance Xerox® USB Wireless Adapter joins your Xerox® ConnectKey® Technology-enabled multifunction printer (MFP) to your wireless network. Compact and secure, it allows you to place your device where you need it. This is especially useful for businesses today that find office space is decreasing and more mobile workers are requiring access to MFPs. Now, you're not limited to placing your MFP where static network points are.

Productive

- Plug-and-play simplicity
- Remote configuration from Xerox® CentreWare® Internet Services
- Place anywhere with immediate uptime

Secure

- Wireless security standards, including WEP 64/128, WPA/WPA2-PSK and Enterprise
- 802.1X port-based network access control

Convenient

- No loss of device functionality; print, scan, digital fax or management
- No need for cabled network points
- Walk up and use from any wireless-enabled device connected to the same network

Cost Control

- No need to pay for additional network points
- Works with existing wireless infrastructures
- No additional third-party hardware requirements

Specifications

FCC Caution

This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the authority to operate equipment.

The Xerox® USB Wireless Adapter is only compatible with Xerox® ConnectKey® Technology-enabled MFPs. For a full list of devices, go to www.connectkey.com.
