PRINT AUDIT 6 FOR EDUCATION

In an economy of education cuts and rising expenses, both K-12 and post-secondary institutions are struggling to manage the expense of document creation.

Implementing a print management solution will allow your school to save thousands of dollars every month by helping you gain a complete understanding of your costs and enabling your faculty and students to make better printing decisions.

TAKE COMPLETE CONTROL OF YOUR PRINTING COSTS:

✓ Track every document produced in your environment by prompting students or faculty to enter a PIN number or department ID.

✓ Utilize declining balances to encourage students to ration their printing.

✓ Set printing limits and redirect large jobs to more efficient devices.

✓ Track and control photocopying with Print Audit's optional Copy Audit solution.

✓ Includes free, unlimited technical support.

Added costs:	$0.000 Job cost: $0.600	
User: thofer	Balance: 100 pages	
Pages: 3 b/w, 0 color	Total pages: 3	

"Since the moment that we implemented Print Audit in our computing lab, the ever-present stacks of unclaimed output completely disappeared."

Laurie MacMillan, IT Administrator, College of Education University of Utah

Print Audit has several offices around the world. Please visit our website to find the location nearest you.

Print Audit is the easiest and most accurate print management solution in the world, with:

- 100's of Education clients.
- 200+ customer testimonials.
- $150 million in recovered costs worldwide since 1999.

Integrates with popular user management systems such as:

LDAP	SunGard Banner
Active Directory	Citrix
Kerberos	Terminal Services

"Our waste has decreased to less than approximately 8% and paper usage in total is now under control. I estimate Print Audit has reduced our cost of operation to one quarter of what it used to be, all this has easily been worth the price of admission."

George Herrera - University of Texas
