

# Fall in Love with Your Printer All Over Again

UPGRADE TO A  
XEROX® VERSALINK TODAY

Solid Ink Celebration of Colour — July 1 through December 31, 2018

Since you first laid eyes on your Xerox® solid ink printer, you loved it for the rich, vibrant colours that turned everything from flyers to sales reports into works of art. But even if love is *eternal*, printers aren't.

When the time comes to replace your printer, get ready for a new generation of Xerox® VersaLink® printers that do everything solid ink machines can and more. Compared to solid ink machines, Xerox® VersaLink devices are:

- **Faster** — Up to 55 color pages per minute for standard paper, 17 ppm for tabloid
- **Higher Resolution** — Up to 1200 X 2400 dpi
- **Wireless and Cloud Ready** — Print directly from your iPad, notebook, phone or the Cloud
- **Versatile** — Print vibrant colour on envelopes, coated paper, or card stock
- **Quieter** — Put your VersaLink anywhere
- **Energy Efficient** — Use a fraction of the electricity

## LOVE A NEW VERSALINK EVEN MORE WITH GREAT DEALS

Upgrade a qualifying\* solid ink printer to a new Xerox® VersaLink colour printer or colour multifunction printer (MFP) and get up to \$1,150 in incentives. [See which VersaLink model is right for you.](#)
