

# Upgrade to a New Xerox® VersaLink® Printer Today

When it's time to replace your solid ink device, don't settle for anything less than Xerox® VersaLink®.

The new VersaLink family delivers all the Xerox advantages you're used to plus new must-haves like IT-free installation, customizable color touchscreen controls, and unmatched multilevel security. And with the app-powered versatility of Xerox® ConnectKey® Technology, they're more than mere printers; they're smart office assistants.

## COMPARED TO SOLID INK DEVICES, VERSALINK PRINTERS ARE:

- **Faster** — Up to 55 colour ppm
- **Quieter** — Put your VersaLink anywhere
- **Higher Resolution** — Up to 1200 X 2400 dpi with vibrant colour, solid fills and life-like skin tones
- **Wireless and Cloud Ready** — Print directly from your iPad, notebook, phone or the Cloud
- **Versatile** — Print on envelopes, coated paper, plain paper or card stock up to 216 gsm
- **Energy Efficient** — Use a fraction of the electricity
- **More Secure** — Unmatched multilayer security protects data and documents from theft or loss.

\*The VersaLink C500 printer and C505 multifunction printer have roughly half the Typical Energy Consumption (TEC) of a ColorQube 8580 printer, based on a 40-hour week.

## THE FUTURE AT YOUR FINGERTIPS

The colour touchscreen control panel on every Xerox® VersaLink® looks and works like your phone so you can spend less time learning and more time doing. And just like a phone, you can personalize it to put favourite functions at your fingertips and create custom presets (think "speed dial") to complete routine tasks quickly.

The colour touchscreen is one of many features of the Xerox® ConnectKey® Technology at the heart of every VersaLink. Use downloads from the Xerox App Gallery or create custom apps to automate complex workflows or access Cloud services like Xerox® Easy Translator App. Yet ConnectKey devices are so simple you can set them up without IT support in about five minutes. Learn more about ConnectKey at [xerox.ca/connectkey](http://xerox.ca/connectkey).

# Xerox® VersaLink®

## Quick Compare

Xerox® VersaLink® colour printers are available in a wide range of configurations from convenient desktop devices to floor-standing models with finishing capabilities. Find the speed, resolution, standard features and options to meet your needs.
