Build profit potential by keeping more of your print work in-house.

Looking for professional-quality color? The Xerox® VersaLink® C9000 Color Printer delivers the superior color imaging technology and professional color management tools that ensure consistent color matching print after tabloid-size print. You’ll be able to save time and money by producing more of your customer-facing collateral in-house.

- **True 1200 x 2400 dpi.** The Xerox® VersaLink C9000 Color Printer’s high print resolution enables production of realistic-looking photos, presentation-quality images and graphics and fine-line detail that makes for sharp text, even in small fonts.

- **The colors you expect, with reliable accuracy.** PANTONE® calibrated solid-color simulations work in concert with Xerox® Color Correction technology and true Adobe® PostScript® 3™ to deliver results that always match your expectations.

- **Seeing is believing.** You’ll hit your color targets with vivid images, rich and deep blacks and smooth color transitions that have no streaking, banding or striping. Clients and prospects alike will be impressed by output that matches what they would get from a professional print shop.

- **No-compromise color matching.** Combining incredibly powerful software with the Xerox® Precise Color Meter powered by X-Rite, the Xerox® Precise Color Management System adds professional level color control and helps maintain color accuracy print after print, and across all output devices.
Reach new levels of accuracy with Xerox® Precise Color Management System.

For graphic artists and color professionals, color matching is a critical task. The Xerox® Precise Color Management System adds critical color control capability through the combination of powerful software and the Xerox® Precise Color Meter powered by X-Rite.

- **Keep colors perfect.** Environmental conditions, such as temperature and humidity, affect a printer’s ability to produce consistently accurate color. The Xerox® Precise Color Management System quickly returns your printer to its factory-new settings.

- **Emulate other devices.** Use the Xerox® Precise Color Management System to create custom color sets that emulate larger press equipment, allowing in-house creation of prepress proofs. With our system, you can quickly set/reset saved color profiles to keep your workflows efficient.

- **Measure colors precisely.** Powered by industry-leader X-Rite, the Xerox® Precise Color Meter measurement device calibrates your monitor and the VersaLink C9000 to match colors from swatch books or color tables, ensuring accurately matched screen-to-print colors. (Included with Xerox® Precise Color Management System.)

- **Perfect your spot colors.** Xerox® Precise Color Management System not only allows fine-tuning of existing spot colors, but new, unique spot colors can be created for your color proofs.
Advanced finishing options and broad media flexibility transform digital dreams to physical reality.

With the Xerox® VersaLink® C9000 Color Printer, you can create finished pieces on a wide range of media to match the designer’s intent.

**YOUR DESIGN ASSISTANT**

Your design team wants to do more than just print. They want to produce elegant invitations, attention-getting posters, memorable booklets and high-performance direct mail. You can count on the Xerox® VersaLink C9000 Color Printer to help them create these and other high-value print pieces. They can choose media in weights from 75 to 350 gsm and sizes from 3.5 x 3.9 inches to 12.6 x 52 inches. And a range of advanced finishing devices enables automated production of booklets, brochures, proposals, newsletters, manuals, reports, business cards, packaging, signage, window decals, point-of-sale materials and more.

**Media Size Capabilities (in inches)**

93 lb Bond, 236 lb Text, 130 lb Cover, 215 lb Tag, 194 lb Index, 160 lb Bristol, 350 gsm. However you measure your paper weight, the VersaLink® C9000 can print on it.
