Section 1: Introducing Xerox® ConnectKey® Technology

Overview

It's easy to become overwhelmed by the countless solutions that promise to fix your most pressing issues. Choosing the right solutions for your people becomes more complex. You want solutions that simply get it done, behind the scenes – solutions that are there when you need them but stay out of mind because they just work.

Simplicity Redefined

Xerox® ConnectKey® Technology is a software ecosystem that provides the building blocks to leverage your multifunction printer to simplify the way work gets done.

Solving today's complexities.

Documents are the currency of business. They are the heart of critical workflows and drive almost every aspect of business. When a group of IT managers, business managers, and mobile workers was asked, 70 % said optimising document flow would help them respond to market needs more quickly and 62 % said it would improve overall revenue*. Why? Because improved employee productivity has strategic revenue-generating consequences. More-productive employees spend more time on innovation, customer service, winning new business, and making the business more competitive.

Imagine an office environment where all print devices have the same core features and functionality, thereby dramatically increasing adoption, and providing a simplified user training experience with less mistakes and faster proficiency. The common architecture behind

ConnectKey, features industry-leading security highlighted by our groundbreaking partnerships with McAfee® and Cisco® to provide additional layers of security software and greater visibility to IT.

ConnectKey enabled solutions reduce waste and paper consumption, and give you time back in your day to do your job more effectively. Plus, compatibility with energy management solutions such as Cisco EnergyWise and a mix of innovative features enable reduced power consumption so you can achieve your sustainability promises. We have rounded out this amazing ecosystem by empowering today's mobile workforce to conduct business in ways that work for them, with scalable, cloud-ready mobile solutions. And we have simplified customers' workflows through tools like ConnectKey for SharePoint®, ConnectKey for DocuShare® or Business Process Outsourcing integration through Xerox.

Whether you manage the devices yourself or choose a Xerox® Managed Print Service, you'll benefit from the tools ConnectKey offers to cut your costs and keep you moving forward.

For more information about Xerox® ConnectKey, go to www.connectkey.com.

Section 2: Evaluating Work Group Colour Multifunction Printers

Overview

Based on continuous study of our customers’ requirements, we recommend that the following criteria be used when evaluating which work group class colour multifunction printer to purchase for your business or organisation.

The following sections examine each of the Xerox® WorkCentre™ 6655 Colour Multifunction Printer’s advantages in greater detail, covering the specific features and performance attributes you should look for in a colour work group multifunction printer. When the same criteria are used to evaluate every device under consideration, you’ll see how the WorkCentre 6655 excels against other manufacturers’ products.

- Convenience
- Productivity
- Security
- Cost Control and Environment

WorkCentre 6655/X shown with one additional tray and stand.

Xerox® WorkCentre™ 6655
Optimised for:

Scanning

Productivity

Security

Networking

Solutions

Wi-Fi

Section 2: Evaluating Work Group Colour Multifunction Printers

Convenience

Today's workplace is not limited to the office. And with the WorkCentre™ 6655 in your office, the freedom of easy mobile accessibility lets you do what you do best wherever your work takes you.

How the Xerox® WorkCentre™ 6655 Exceeds the Convenience Requirement

Ease-of-use

Look for fully integrated functions that work together to create more value than the sum of their parts. Are the functions easy to learn? Is the user interface consistent from function to function? Do the network features give users full access to the power of your network? Does the device include additional software to take full advantage of digital documents?

- **Leading-edge colour touch screen user interface.** Provides the comfortable look and feel Xerox is known for and features bright, intuitive icons and easy access to all major functions directly from the home screen.
- **A help desk at your fingertips.** Get quick, easy, step-by-step troubleshooting assistance – like tips for sending a scan via email – with embedded help videos right on the user interface.
- **Advanced copy and print features.** The WorkCentre 6655 greatly simplifies everyday office tasks, providing plenty of support for specialised print applications including Annotation, Bates Stamping, ID Card Copy, tab print capability and page-level programming.
- **Consistent user experience.** The WorkCentre 6655 features the same technology as our other latest-generation multifunction printers, making users more comfortable operating the devices because of their common look and feel. For more information about our groundbreaking Xerox® ConnectKey® Technology, visit www.connectkey.com.
- **Front panel user interface.** It doesn't matter if a job is simple or complex – the newly engineered colour touch screen interface is easy to learn and offers quick job programming. It features bright, intuitive icons and easy access to all major functions directly from the home screen. Third-party applications can be integrated with the touch screen interface as well, thanks to Xerox® Workflow Solutions, built on our Xerox Extensible Interface Platform® technology.
- **Network management.** It couldn't be easier for the network administrator; the WorkCentre 6655 integrates seamlessly into virtually any network environment. Network configuration is easy with CentreWare® install wizards – which eliminate the need for IT staff to reset parameters, connect users or manage job queues device by device. Onboard SNMP support lets customers integrate with other network frameworks.
- **Convert paper documents.** Scan documents to create text-searchable PDFs and single and multipage PDFs for easy archiving, organising and searching.
- **On-box Optical Character Recognition, searchable PDF.** Easily convert hard-copy documents into searchable-PDF format for faster retrieval.

Remote Control Panel

Remotely operate the WorkCentre 6655 control panel from any office PC as though you were standing at the device. The Remote Control Panel makes it easier and more convenient to train users and for IT staff to remotely view and monitor the user interface. And during a remote session, walk-up users are notified at the device to prevent simultaneous system changes. Plus, advanced print drivers and free device management tools let you remotely monitor real-time performance and available resources for greater uptime.

Section 2: Evaluating Work Group Colour Multifunction Printers

Convenience (cont'd)

Mobility

When at the workplace, the Xerox® WorkCentre™ 6655 gives your office staff the luxury of controlling device functions from any workstation. Plus, mobile professionals can stay connected to the communications tools and productivity solutions offered by the WorkCentre 6655 – for more flexibility regardless of location.

- **Xerox® Mobile Print and more.** Take the mystery and anxiety out of wireless and mobile device printing. Xerox has all the options to enable secure, accurate printing from most mobile devices, to any printer or multifunction printer, regardless of brand. Get industry-leading accuracy when printing native Microsoft® PowerPoint®, Word® and other standard files. Plus, Xerox offers IT-friendly optional capabilities such as PIN code access, multiple mobile operating systems and more. Whether offsite or onsite, learn more about why Xerox is the only choice for today's mobile professionals by visiting www.xerox.com/mobile.
 - Choose Xerox® Mobile Print Solution with an on-site server for your internal network, or behind your network's firewall, for added control and higher volume use.
 - Choose Xerox® Mobile Print Cloud to easily manage local and remote locations, control visitors' printing access and "pay as you use."
- **Optional Wi-Fi connectivity.** Administrators can connect the WorkCentre 6655 devices anywhere, without the need for network cabling.
- **Xerox® ConnectKey® for SharePoint® or Xerox® ConnectKey® for DocuShare®.** Scan files directly into Microsoft® SharePoint or Xerox® DocuShare® and other Windows® folders. Plus, you'll go beyond basic file storage and PDF creation by automatically converting documents to intelligent, structured data with easy file naming and routing tools.
- **Xerox® ConnectKey® Share to Cloud.** Our cloud-based scanning solution provides easy, secure, scalable scanning to popular cloud-based repositories such as Google Docs™, Salesforce.com, Office 365 and Dropbox™, using custom-designed workflows.
- **Apple® AirPrint.** Print email, photos and important office documents directly from your Apple iPhone® or iPad® with no drivers to install and no cables to connect. With AirPrint, your iPhone or iPad automatically locates and connects to the AirPrint-enabled WorkCentre 6655 device over your office Wi-Fi network.
- **Mopria™ certified.** Mopria certification simplifies the mobile printing experience for tablets and smartphones to many printing devices, including the WorkCentre 6655.

Section 2: Evaluating Work Group Colour Multifunction Printers

Productivity

Don't just keep up – pull ahead. With Xerox® ConnectKey® Technology, the WorkCentre™ 6655 sets a new benchmark for optimised office efficiency. Automate everything from routine tasks to more-complex workflows, and stay connected to the ways you like to get work done. Plus, impressive colour output gives your important documents added impact.

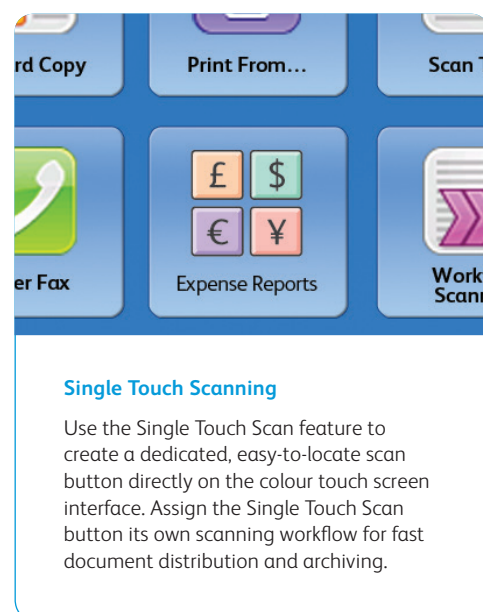

How the Xerox® WorkCentre™ 6655 Exceeds the Productivity Requirement

- **Scanning at up to 54 images per minute.** Colour and black and white scanning enables faster electronic distribution of documents for more effective and impressive communications.
- **Single touch scanning.** Use the Single Touch Scan feature to create a dedicated, easy-to-locate scan button directly on the colour touch screen interface. Assign the Single Touch Scan button its own scanning workflow for fast document distribution and archiving.
- **Exceptional print and copy quality.** With superior fine-line definition, shadows and highlights, your copies truly look like the original.
- **Walk-up simplicity.** Print from and scan to any USB memory device for faster document delivery when you're not at your computer.
- **Your print job, your priority.** The Print Around feature eliminates extended printing delays by holding a job in need of resources (such as a different paper size) and printing the next job in the queue.
- **Customise your solutions.** Xerox Extensible Interface Platform® Serverless technology allows creation of ConnectKey® Apps to run on Xerox® multifunction printers built on ConnectKey Technology without the need for additional IT infrastructure. This allows you to simplify and personalise the usability of your device with a range of capabilities from support applications to scanning.

Management, Deployment and Remote Installation

Installing and deploying a fleet of multifunction printers throughout your organisation is a potentially time-consuming, complicated task. The process isn't limited to physically placing the units in their new environments, but also includes integrating the devices with the existing network infrastructure. Also, consider the process required to deploy printing and scanning services to your users and how automated that process can be.

- **Single print driver works with all printers.** The Xerox® Global Print Driver® supports Xerox® and non-Xerox® devices on the network. Never have to redeploy another print driver, saving hours of downtime.
- **Configure once, apply fleet wide.** Xerox® multifunction device configurations can be cloned and distributed to all similar multifunction devices on your network, eliminating the need to configure and manage each device individually.
- **Installation.** When you choose Xerox, you can rest assured that your equipment will be delivered and installed into your environment to your specifications and expectations. All network-enabled configurations include an embedded 10/100/1000Base-T Ethernet connection with innovative features like auto IP addressing, device naming, and Ethernet speed sensing to provide simple and automatic installation on networks. These features make the WorkCentre 6655 quick and easy to get up and running. Management and system setup can be accomplished through a variety of means,

Single Touch Scanning

Use the Single Touch Scan feature to create a dedicated, easy-to-locate scan button directly on the colour touch screen interface. Assign the Single Touch Scan button its own scanning workflow for fast document distribution and archiving.

Section 2: Evaluating Work Group Colour Multifunction Printers

Productivity (cont'd)

including the easy, wizard-based process found within Xerox® CentreWare® Web. Additionally, the WorkCentre 6655 can integrate with third-party management applications like Unicentre® TNG, IBM® Tivoli® NetView®, Microsoft® Management Console, and HP® WebJetAdmin®. Cloning capability allows fleets of devices to be installed with identical settings, eliminating the need to set up each system individually.

- **Deployment.** With the WorkCentre 6655, print and scan drivers can be deployed centrally, thereby eliminating the need for IT staff to perform desk-to-desk manual installation of the driver software. In many cases, existing Xerox® drivers on your network can work with your new hardware, potentially saving the step of updating your driver software altogether. Again, wizards are provided within CentreWare Web to aid in installing, troubleshooting, and upgrading your driver software, freeing up your IT staff for more pressing projects.
- **Xerox® Mobile Express Driver®.** Mobile Express Driver makes it easy for mobile users to find, use and manage Xerox® and non-Xerox® devices in every new location. Plug into a new network, and Mobile Express Driver automatically discovers available printers and provides status and capability information. Save a list of “favourite” printers for each location, store application print settings for use on any printer in any network, and greatly reduce mobile support calls to IT.
- **Xerox® Global Print Driver®.** Global Print Driver is a truly universal print driver that lets IT administrators install, upgrade and manage Xerox® and non-Xerox® devices from a single driver. It provides a consistent, easy-to-use interface for end-users, reducing the number of support calls, and simplifying print services management.
- **Xerox® CentreWare® software.** CentreWare Web management software is a powerful device-management solution for IT. The free software eases the chore of installing, configuring, managing, monitoring and

pulling reports from the networked printers and multifunctional printers throughout an enterprise, regardless of their manufacturer. Xerox also addresses enterprise asset management through compatibility with network management tools for Sun, Novell®, Microsoft® and other environments. The Xerox® WorkCentre™ 6655 also includes Xerox® CentreWare® Internet Services, an embedded web server that allows administrators and IT personnel to perform detailed status checks on the system and consumables, change system settings, and manage access and accounting controls via any standard web browser.

- **Bidirectional print drivers.** The WorkCentre 6655 includes Xerox® CentreWare® print drivers, which feature clear, graphical user interfaces that provide for easy, intuitive interaction with the multifunction printer. The drivers provide immediate desktop access to all WorkCentre output functions. The drivers also provide bidirectional information, indicating device and job status, currently loaded paper sizes and types, and installed options – so there is no need to consult other software to obtain such information. Easy-to-understand icons access the most commonly used functions, such as paper selection and document finishing. Plus with the Saved Settings feature, frequently used print job parameters can be stored for reuse.
- **Xerox® Copier Assistant®.** This software allows easier access to the copying capabilities of Xerox® multifunction devices. An alternative to the standard touchscreen, Xerox® Copier Assistant software helps everyone, especially people who are wheelchair users, blind or visually impaired, easily programme copy jobs and make copies using text-to-speech technology, screen magnification software and easy keyboard access to copying features using tab, arrow, function and hot keys.

User Training and Helpdesk Support

- **Xerox Online Support.** This keeps you up and running by providing instant access to searchable online help right at the WorkCentre 6655 Colour Multifunction Printer’s front panel. Online Support is also available from the print driver, where it gathers information stored in the printer, examines the information, diagnoses the issue and collects relevant solutions from the Xerox knowledge base. From there it either returns a solution specific to the problem or walks a user through a troubleshooting tree. So users are now able to troubleshoot printer issues directly from print driver without having to walk to the device. You get the same information our Product Support Specialists use when resolving printer problems, assisting with error codes, print quality, media jams, software installation, and more.

Reliability

Office productivity relies on tools that do their jobs day in and day out. Consider how often you need to intervene to replace paper or other consumables or to clear jams. How easy is that intervention, and how long is the device typically down? If outside assistance is required, how easy is it to schedule and how long do you have to wait? Is the device a reliable network citizen? Has it been tested and certified by independent industry participants?

Section 2: Evaluating Work Group Colour Multifunction Printers

Security

Business data is your company's lifeblood. Ensure it's guarded by the most comprehensive range of features, technologies and solutions from the most trusted security industry leaders.

How the WorkCentre™ 6655 Exceeds the Security Requirement

- **Control the timing of your documents.**
With Secure Print, there's no need to worry about confidential or private documents being left in the output tray, open for viewing or even taken by someone else.
- **Protect your confidential information.**
Sensitive data is safe with encrypted PDF files for scanning and the WorkCentre 6655 devices are compliant with the 256-bit AES FIPS 140-2 standard. Hard drive image overwrite eradicates data stored on the hard disk automatically, at specific intervals, or on command and hard disk encryption safeguards data while it's stored.
- **Secure email.** WorkCentre 6655 devices are compatible with mail service providers such as Google and Yahoo so that emails can be scanned to email securely.
- **Permit only authorised users.** Allow access to the device with user permissions, network authentication, IP filtering, and smart card, role-based and function-level login.
- **Protect against threats.** The WorkCentre 6655 includes McAfee® technology integration, resulting in the industry's first lineup of multifunction printers that protect themselves from potential outside threats. McAfee's whitelisting technology ensures only safe, pre-approved files or functions are executed on your devices, minimising the need to manually update software levels against new security threats. Also, seamless integration with the Xerox® Managed Print Services toolset and McAfee ePolicy (ePO) allows for easy tracking and monitoring.
- **Manage Policies.** Automatic Cisco® TrustSec Identity Services Engine (ISE) integration provides comprehensive visibility of all endpoints of Xerox® multifunctional printers built on ConnectKey Technology to enforce IT-centric security policies and compliance.
- **Stay compliant with regulations.**
WorkCentre 6655 devices comply with the latest security standards across industries, including government, finance and healthcare. These include Common Criteria (undergoing evaluation), HIPAA, Data Protection Act, COBIT and more. These devices can conform to any standard, with controls available to match your needs.

Convenience Authentication

Xerox® multifunction printers built on ConnectKey Technology can be upgraded with optional solutions to deliver even greater cost control capabilities. They support many card reader technologies that enable users to log into the device using a proximity card, student ID, or security card, providing a secure method of authentication, tracking usage and billing.

Section 2: Evaluating Work Group Colour Multifunction Printers

Cost Control and Environment

Your business needs a positive return on its investments. The Xerox® WorkCentre™ 6655 features innovative tools that simplify the way you manage printing and enable more ways to keep costs in check.

How the Xerox® WorkCentre™ 6655 Exceeds the Cost Control Requirement

Control Costs

- **Manage, track and report device usage.** Use Xerox® Standard Accounting tools to control print quantities and charge-back options. Advanced solutions from Xerox Alliance Partners deliver even more helpful tools for larger office environments.
- **Customise your print driver settings for economy and efficiency.** For example, choose N-up for printing multiple pages on a single sheet as your default. Adjust settings for specific applications, such as always printing emails in black and white.
- **Secure Print with timed deletion.** With this feature, users are required to enter a passcode at the device to release the job and documents not printed within a set time will be deleted. That means less documents are unnecessarily printed and left at the device.
- **Print responsibly.** By default, our print driver is set to two-sided printing.
- **Control colour output.** Administrators can limit users' print output to black and white only by applying this setting within the driver.
- **Reduce unclaimed prints.** With the Hold All Jobs Queue feature, jobs are printed only when the user walks up to the device and releases it.

Reduce Energy Consumption

Get a powerful multifunction printer that includes a number of environmental features.

- Power save with quick start-up conserves electricity during downtime while keeping the device ready for action.
- Full compliance with EU Restriction of Hazardous Substances (RoHS) Directive, EAC, and ENERGY STAR.
- Multiple print settings are available that allow for reduced impact on the environment. Options include default two-sided printing, proof print, printing on recycled paper and draft mode.
- Our innovative Earth Smart print driver settings let you select the most environmentally conscious print options.
- Energy Management. With Cisco EnergyWise, enabled by Xerox® Power Management Information Base (MIB), you can control, manage and report your device's power consumption information, and set optimal power states and timeout intervals.

Visit our website, www.xerox.com/about-xerox/environment, to learn more about our environmental stewardship efforts.

Maintain control.

User Permissions allow the ability to limit colour printing, and to restrict access to print features by user, group, time of day, or by application. For example, select a rule that makes all Microsoft® Outlook® emails automatically print in black and white and in duplex mode.

Section 3: Configuration Summary, Product Specifications, Finishing Options and Supplies and Support Resources

Configuration Summary

ConnectKey®

The WorkCentre 6655 Colour Multifunction Printer is built on Xerox® ConnectKey® Technology. For more information, go to www.connectkey.com.

Device Specifications		WorkCentre 6655/X
Speed		Up to 36 ppm letter / Up to 35 ppm A4
Duty Cycle ¹		Up to 100,000 pages / month
Hard Drive / Processor / Memory		Minimum 250 GB / 1 GHz Dual-core / 4 GB
Connectivity		10/100/1000Base-T Ethernet, High-Speed USB 2.0, Optional Wi-Fi (with Xerox® Wireless Networking Adapter)
Controller Features		Unified Address Book, Remote Control Panel, Online Support (accessed from the user interface and print driver), Configuration Cloning
Copy and Print		
Copy and Print Resolution		Copy: Up to 600 x 600 dpi; Print: Up to 2400 x 600 dpi
First-print-out Time (as fast as)		Copy: As fast as 16 seconds colour / 15 seconds black and white ; Print: As fast as 11 seconds colour / 11 seconds black and white
Page Description Languages		Adobe® PostScript® 3™, PDF, PCL® 5c / PCL 6, XML Paper Specification (XPS®)
Print Features		Print from USB, Earth Smart Driver Settings, Store and Recall Driver Settings, Bidirectional Status, Smart Duplex, Automatic Two-sided, Booklet Printing, Proof Print, N-up, Print Around
Mobile Printing		Apple® AirPrint, Xerox® Mobile Print (Optional), Xerox® Mobile Print Cloud (Optional), Xerox® PrintBack, Mopria™ certified
Scan	Standard	Destinations: Scan to Mailbox, Scan to USB, Scan to Email, Scan to Network; File Formats: PDF, PDF/A, XPS, JPEG, TIFF; Convenience Features: Scan to Home, Single Touch Scan, Searchable PDF, Single/Multi-Page PDF / XPS / TIFF, Encrypted / Password Protected PDF, Linearised PDF / PDF/A
	Optional	Software Packages: ConnectKey® for SharePoint®, ConnectKey® for DocuShare®, ConnectKey® Share to Cloud, Xerox® Scan to PC Desktop® SE and Professional, other solutions available through various Xerox Alliance Partners
Fax		Embedded Fax ² , LAN Fax, Internet Fax, Server Fax
Security	Standard	McAfee® Embedded, McAfee ePolicy (ePO) Compatible, Hard Drive Image Overwrite, 256-bit Encryption (FIPS 140-2 compliant), Common Criteria Certification (ISO 15408) ³ , Secure Print, Secure Fax, Secure Scan, Secure Email, Cisco® TrustSec Integration, Network Authentication, SSL, SNMPv3, Audit Log, Access Controls, User Permissions
	Optional	McAfee Integrity Control, Xerox Secure Access Unified ID System®, Smart Card Kit (CAC/PIV, .NET)
Accounting	Standard	Xerox® Standard Accounting (Copy, Print, Scan, Fax, Email), Network Accounting Enablement
	Optional	Equitrac Express®, Equitrac Office®, Equitrac Professional®, YSoft® SafeQ®, other network accounting solutions available through various Xerox Alliance Partners
Paper Input	Standard	Duplex Automatic Document Feeder: 60 sheets; Custom sizes: 5.5 x 5.5 in. to 8.5 x 14 in. / 139.7 x 139.7 mm to 216 x 356 mm Bypass Tray: 150 sheets; Custom sizes: 3 x 5 in. to 8.5 x 14 in. / 76.2 x 127 mm to 216 x 356 mm Tray 1: 550 sheets; Custom sizes: 5.8 x 8.3 in. to 8.5 x 14 in. / 148 x 210 mm to 216 x 356 mm
	Optional	1 Additional Tray: 550 sheets; Custom sizes: 5.8 x 8.3 in. to 8.5 x 14 in. / 148 x 210 mm to 216 x 356 mm
Total Capacity (Std. / Max.)		700 / 1,250 sheets
Paper Output		250 sheets face down with tray full sensor
Finishing		Offline Convenience Stapler: 20-sheet, Single Position
Warranty		One-year on-site warranty (geography dependent)

¹ Maximum volume capacity expected in any one month. Not expected to be sustained on a regular basis. ² Requires analogue phone line. ³ Undergoing evaluation.

Section 3: Configuration Summary, Product Specifications, Finishing Options and Supplies and Support Resources

Support Resources

Unrivaled Service and Support

Behind every Xerox® product is a large network of customer support that's unrivaled in the industry and available when you need it. Xerox service professionals use leading-edge technologies to keep you up and running. They're even linked to the engineers who designed your product, so you can be confident when you choose Xerox. And genuine Xerox® supplies are always readily available.

Xerox® Office Services Support

Asset Management Services

- Asset Optimisation and Tracking – Process and tools to optimise an enterprise's office output infrastructure and reduce hard costs
- Break-Fix Management – Single point of ownership and management for break-fix service of all brands of office output devices, regardless of manufacturer
- Supplies Management – Process and tools to procure, monitor and replenish all document-related supplies proactively

Imaging and Output Management Services

- Output Management – Single point of management of office output from all output devices, regardless of manufacturer
- Image Capture and Workflow – Cost-efficient solutions for capturing, managing, retrieving and distributing information into digital repositories

Support Services

- Technology Procurement and Deployment – A creative and flexible end-to-end print/computer product acquisition solution that uses a single-point-of-contact model while lowering the total cost of acquisition
- Help Desk Services – A broad range of enterprise services, managed through a centralised single point of contact and delivered through either an on-site or off-site model
- End User Services – Microsoft® software implementation, IT project consulting, and customer education

Access Managed Services

- Student and Library Patron Access – Custom designed and implemented customer-managed solutions
