

Xerox® EX-P 1000i Print Server Powered by Fiery®

For the Xerox® Colour 800i/1000i Presses

Maximise your ROI with higher production.

Get more jobs done faster with the powerful Fiery® FS150 Pro software that features HyperRIP, a unique speed-enhancing technology that allows you to process individual jobs with up to 55% more horsepower.

Work more profitably with differentiating services.

Easily add dazzling effects to high-value, personalised applications with the Speciality Dry Ink Kit option and Fiery Image Enhance Visual Editor. With a few clicks of the mouse, you can add Gold or Silver Metallic Dry Ink to any job. A live 3D preview simulates how the effects will sparkle in the light. Quickly enhance marketing pieces with Clear Dry Ink and give effects a new dimension with Multi-Pass Clear Dry Ink for embossed, high-quality prints that satisfy the needs of even the most demanding customers.

The automatic identification of job elements such as text, images, graphics and spot colours makes Speciality Dry Ink effects easy for even a novice user to apply. Plus, there's no need to re-programme jobs, which makes the process simple and quick.

Get outstanding colour every time.

Get the best out-of-the-box colour consistency and accuracy with powerful colour matching, profiling and automated calibration. The Xerox® EX-P 1000i Print Server also integrates Fiery Spot-On®, Fiery Color Profiler Suite and the Fiery Graphic Arts Package, Premium Edition to make advanced colour troubleshooting, preflight and proofing tasks quick and precise.

Deliver finished jobs simply and quickly.

Fiery Command WorkStation® and Fiery Impose-Compose make job preparation faster and more efficient, increasing your production and reducing errors by centralizing job makeready in an intuitive user interface with visual imposition and document assembly tools.

Automate with seamless integration.

By supporting the Adobe® PDF Print Engine® 3.0, Fiery servers offer a native end-to-end PDF workflow, allowing you to improve the consistency and flexibility of your printed output from design to print.

Fiery JDF technology automates and integrates your business and print process to help you produce more jobs profitably, so you can easily integrate with technologies such as Xerox® FreeFlow® Digital Workflow Collection and Xerox® FreeFlow® Core, plus other EFI solutions such as EFI Digital StoreFront® and EFI MIS/ERP business software and other leading prepress workflows.
